Send Email CANCEL

Check the box for your selection.

You can select different customers and send different emails to them, or send the same email to all your customers at the same time.

When you have made your selection, check the box next to the email you are going to send and then click “Send Email” at the bottom.

3b Add Customer

To add customers manually (instead of importing), click the “Add Customers” button and you will get a screen like this for entering information.

When you are finished entering information, click “Add Customer”. The customer information will be stored.

3c Delete Customer

We recommend keeping customer lists from year to year, but there may be times when you will need to delete one or more. To do that, select the box in front of the customer(s) you want to delete, then click on the “more” dropdown menu and select “Delete Customer”.

You will get a pop-up warning that deletion is permanent and confirming how many customers you are attempting to delete. To continue with deletion, click “yes”

Delete Customer

You want to delete 1 name from your customer list.
If deleted, this cannot be undone.

3d Import

Clicking on the “More” drop down menu gives you the option to import a customer list.

The screen has instructions on how to import contacts. It also includes the template that you will need for importing. The template is on the second tab in the spreadsheet, titled “Import_Customer.”

Import a List of Customer Names

You can take a copy of information you have in one program and use it in another program. When you do this, you are importing a file from one place to another.

Steps to import a customer list into Digital Cookie

1. Download our [Cookie Customers Template](#). There are helpful instructions in the file.
2. Type the names of customers who would like cookies into the file. Include their email addresses so you can send them a cookie marketing email. Remember to save the file.
3. When you have finished putting in the names of your customers, select "Import file."

Choose File

When the list is prepared and saved, use the “Choose File” button to select your file from where you saved it. Then click the green “Import File” button at the bottom. When it has successfully imported you can send marketing emails to those customers.

3e Export

The “More” drop down menu also gives you the option to export your customer list. When you choose “Export” a screen will pop up with instructions on how to export your customer list and save it to your computer.

Simply click the green “Export File” button and you will be asked where you want to save the file on your computer.

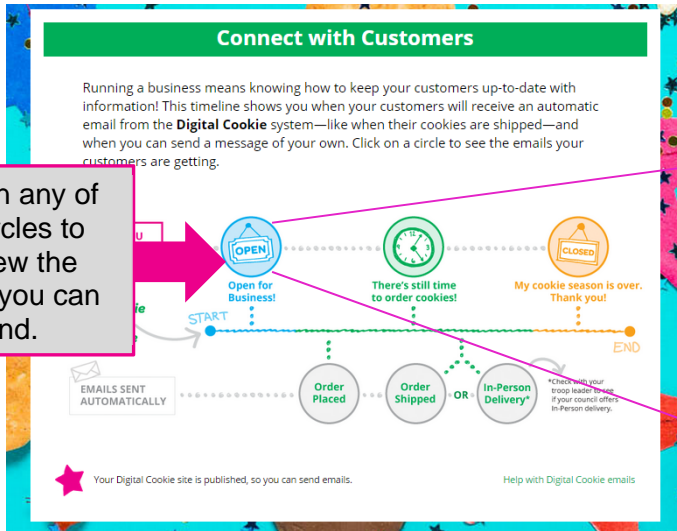

Export Your Customer List

Saving a copy of your customer list is easy. When you select the "Export file" button, a file will download to your computer with the name "DigitalCookieCustomers". You can rename the file, if you wish, and save it on your computer.

Connect with Customers

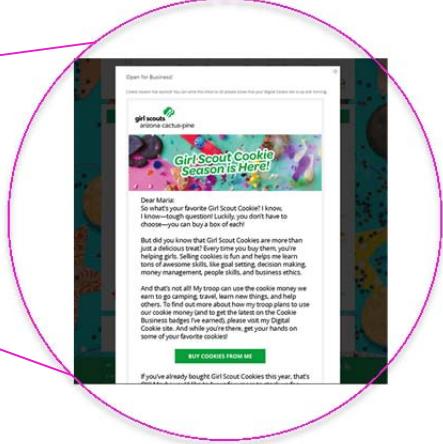

Learning about marketing to your cookie customers is a great skill that can increase cookie sales. In this section you can see the three different emails to send to your customers - and get suggestions for when to use them.

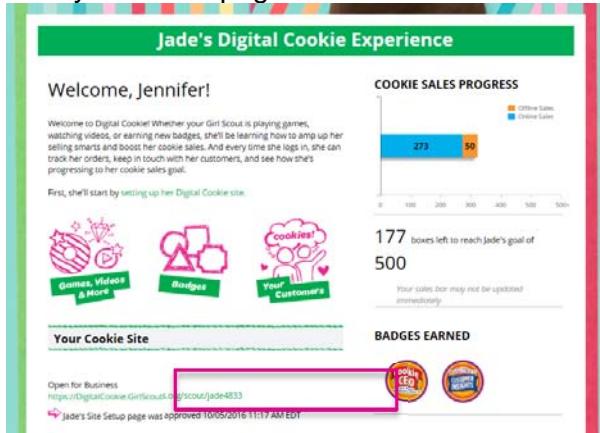

Click on any of the circles to preview the emails you can send.

You can also send customers a link to your Digital Cookie Website directly from your home page.

Customers who purchase directly from a link won't be reflected accurately in your customer list and won't count as an email sent in your totals. But their orders are treated the same no matter how they reached your website.
