Hello, Girl Scout Nation!

I trust that your Girl Scout year is off to a fantastic start, and we’d like to help jump-start your year with a guide to all things Girl Scouts. We’re busy planning the leadership experiences that you rely on from Girl Scouts to help deliver the mission of building girls of courage, confidence, and character, who make the world a better place. Within the pages of this guide you will find information on phenomenal programs, large all-council events, camping opportunities, product sales programs and just about anything else you might need to get your troop moving in the right direction!

Girl Scouts of Central Illinois looks forward to an awesome programmatic year for all of G.I.R.L.s. Whether your girls prefer to attend high-adventure activities like horseback riding, zip lining, high ropes courses, 3-D archery or one of many other adventurous activities, you will find our offerings here. If STEM is their thing, check out one of our many STEM offerings! A power plant experience, welding, a day-long seminar at a local community college dedicated solely to STEM--there’s something for all of their STEM interests!

If the great outdoors is what you’re looking for, then look no further. Core troop camping, family camping, all interspersed with overnight camping opportunities throughout the year.

Let’s not forget the largest all-girl financial literacy program in the WORLD. You’ll find information about cookie trainings, cookie rally, and program milestones.

We hope that you enjoy the bigger, bolder ADVENTURES GUIDE 2020!

Troop Camping

It is no secret that Girl Scouts founder Juliette Gordon Low loved nature and the great outdoors. And over the past 100 years, many Girl Scouts tell us “camping trips” are one of the best things about their Girl Scout experience. Studies show that girls today are not spending nearly enough time outdoors. Technology and structured activities leave less time for girls to get outside and enjoy nature. But, troops can still get outdoors at our Girl Scout properties.

Learn more about our camps and make reservations on our website at www.getyourgirlpower.org under Camps. The hyperlinks on our website will take you to our reservation site, where you will find more pictures of the campgrounds, costs, capacities, and amenities. Once you reserve a campsite, a confirmation email with a hyperlink to your information packet will be emailed to you.

Troop Camping Tips:

- Take your Basic Outdoor Training a.s.a.p.! This training will give you the basic information you need to know.
- Girl Scouts of United States of America (GSUSA) has awesome training videos. Go to girlscouts.org and click on For Adults and Volunteer Resources for more outdoor resources.
- Build a team of parents to help you plan the event. You do not have to do everything alone.
- Get the girls involved. Ask them what they want to do at the campout! What badges do you want to work on? Let them help plan the menu.
- Book your campsite sooner rather than later. Site reservations open 6 months in advance. When booking your site, request any outdoor adventures on the Outdoor Adventures Form in the forms section of our website. Adventures are facilitated by volunteers and the sooner we know a date, the better.
- Set a cookie goal that helps cover the cost of your campout! Make sure the girls and parents understand that the cookie program will help pay for the outing.
- Make sure your parents are informed (and invited) to the overnight. Be sure to get a permission slip for each girl.
- While camping, respect wildlife and others camping. Leave a place cleaner than you found it.
- Have fun! If something goes awry when you are camping, let it go and focus on the girls and being in the moment!

Outdoor Progression

Progression allows girls to learn the skills they need to become competent in the outdoors, including how to plan and organize outdoor activities. Acknowledge a girl’s mastery of an outdoor skill and invite her to challenge herself further by taking that next step up and out! Outdoor fun can be endless when girls lead.

GIRL SCOUTS prepares girls to **TAKE THE LEAD** and **CHANGE THE WORLD**!

While some people still think of Girl Scouts as cookies, campfires, and friendship bracelets, we are so much more. Girl Scouts are **BIG THINKERS, GROUNDBREAKERS, AND ROLE MODELS**. They design robots, start garage bands, and improve their communities—and yes, they sell the best cookies on the planet!

She's bold, honest and determined to succeed. In her mind failure is no reason not to get back up and try again, and again, and again. That explains why half of all U.S. businesswomen were Girl Scouts.

Thinking outside of the box is her specialty, so she's always looking for a creative way to take action. A clear correlation: 75 percent of current female senators were Girl Scouts.

Courageous and strong, she's keen to try new things and embrace the unfamiliar. It's no wonder that nearly all of the 40 women who have flown in space were Girl Scouts.

She's confident, responsible, and committed to changing the world. Here's proof: Every year, Girl Scouts collectively spend more than 75 million hours improving their communities.

Entrepreneurship Progression

Progression allows girls to gain new skills, build their confidence, and develop an entrepreneurial mindset over time. As they engage in the Girl Scout Cookie Program and beyond, girls learn five valuable skills that will serve them for the rest of their lives. As you work with girls, acknowledge their skill development and encourage them to challenge themselves further. Eventually, they’ll be ready to translate their skills into true entrepreneurship or bring an entrepreneurial mindset to whatever path they choose.

Five skills learned from the cookie program:
- Goal setting
- Decision making
- Money management
- People skills
- Business ethics

Fall Products

September 27-October 21, 2019

Order or renew your family favorite magazines during Girl Scouts Fall Product program also!
The Girl Scout Cookie Program is a great way to fund troop service projects and troop activities. Girl Scouts will learn valuable life skills—Goal Setting, Decision Making, Money Management, People Skills, and Business Ethics—as they work together to reach team and individual goals. Girls will earn cookie dough that can be used to buy a new uniform or books, attend events or camps, or spend at the Trefoil Boutique and Trading Post.

Digital Cookie allows girls to take their cookie business to a whole new level! The Digital Cookie platform helps prepare girls to be leaders in the fast-paced e-commerce world of today. With this new and innovative online sales approach girls can customize the way they learn and earn by using technology in a whole new way and earning a variety of badges along the way. Girls can customize their own web page, learn digital design skills, send marketing emails to neighbors and friends; and they can even reach customers around the country.

**Operation Cookie Share and Adopt-a-Soldier Programs**

Operation Cookie Share and the Fall Product Adopt-a-Soldier programs were started in 2011 as a give-back program to our military women and men at home and abroad. Girl Scouts ask their customers if they would like to contribute a box of cookies or donate to our military men and women. These programs demonstrate the power and hearts of our Girl Scouts and our community.

To date the program has provided over 1.5 million dollars’ worth of cookies, fall product and magazines to our heroes.
Girl Scout badges are a great way for a girl to explore her interests and learn new skills - and to remember every adventure and show the world what she’s accomplished.

What is she passionate about? Does she dream of making her own movie, cooking food from a different country, or going geocaching? Sleeping under the stars, writing a book of short stories, or planting a garden? Or maybe she wants to invent something new, paint a masterpiece, learn about endangered wildlife, star in a play, design a website, or go kayaking. She may want to turn her bedroom into a jungle, run a successful business, or go on an amazing trip.

The sky’s the limit!

Girl Scout Highest Awards

Bronze. Silver. Gold. These represent the highest honors Girl Scouts can earn as Juniors, Cadettes, Seniors, and Ambassadors. All three awards give girls the chance to do big things while working on an issue that’s captured their interest in a big way. Whether they want to plant a community garden at school and inspire others to eat healthily for the Bronze, advocate for animal rights for the Silver, or build a career network that encourages girls to become scientists and engineers for the Gold, they’ll inspire others (and themselves).

The first step for a girl interested in earning her highest award is participating in an Award Chat. Award Chats will discuss the guidelines for earning the Bronze, Silver, and Gold Awards. The chats will be hosted as a go-to meeting which will consist of a PowerPoint training, outlining the guidelines, paperwork and deadlines. It will also include a question-and-answer opportunity, so troop leaders, parents and girls will feel more confident in their journey towards these awards.

This year the Award Chats will be offered as a Monday night option or a Thursday lunch and learn. The chats will be 30 minutes long. To register for AWARD CHATS, visit GETYOURGIRLPOWER.ORG and click on EVENTS. Deadline to register is the week before each chat. Contact Jessica Foster with any award questions at jfoster@girlscouts-gsci.org.

**Heather Barrick**

**Abstract Music Wall**

Heather created an abstract music wall to help the young children in her Illini Bluffs community gain experience with music. This project will introduce many kids into the world of music before they are in school. This wall is a way to introduce the world of music into her community, because the number of students in the music program at her school is becoming fewer and fewer. Her project attacks the issue of the lack of music education that children are getting in the schools.

---

**Shea Beatty**

**Physical Health Promotion for Ages 5-12**

Shea added several new playground pieces to her local park in Loraine to help promote physical fitness. No changes or upgrades had been made to the park in her 13 years of living there, so she wanted more things to do at the park that interested kids to be outside more. Several pieces of playground equipment were added that would help with coordination, upper body strength, motor skills, and so forth. Since installing the equipment, there have been many more kids outside playing and being active, helping to squarely target the issue of child obesity.

---

**Emma Burris**

**Learn and Grow Tutoring**

Emma created a tutoring program at Real Life Church. With this program she is able to reach students in her church who are struggling with school and help them reach their full potential. The program is able to reach many children who need help in school. The students meet each week on a Wednesday night before church to check homework, review math facts, go over spelling words, or whatever they may need. The tutoring program helps reach students who are falling behind, help them understand what they are have misunderstood, and help them catch up in their classes.

---

**Renee Davis**

**Robotics Boot Camp**

Renee created and ran 2 weeks of a STEM camp for 4th through 6th graders with the help of the Dunlap Eagles Robotics Team. She created flyers for advertising, lesson plans for teaching, and schedules to keep things running smoothly throughout the week. Through the camp, 60 students learned the basics of computer science, programming, and robotics, as well as how to utilize the aspects of STEM to solve problems in everyday life. This project addressed the lack of STEM opportunities for kids in her community.

---

**Kaitlin Dickey**

**Updated Civil War Monument**

For Kaitlin’s Girl Scout Gold Award project, she updated the Civil War monument in Decatur’s Fairview Park. She replaced the old flag pole with a new one. Her project benefits the community by beautifying the park and making people aware that her town has a Civil War monument. By bringing awareness to it, the community might visit and respect the number of people from the area who fought in the war. Her project addressed an awareness issue by bringing the monument’s and its past problems attention to more people.

---

**Emilie Fox**

**Music DVDs**

Emilie created music lessons due to the lack of a Prairieview-Ogden K-4 music program. Each lesson required writing lesson plans and scripts, filming and editing, making games, and burning them onto DVDs. Emilie’s lessons will be used as a supplement to the part-time music teacher’s lessons or as activities for substitute teachers. Emilie chose this project because her sister did not have the benefit of music class, which made her 5th grade band harder. Her project helps fill the void left by the lack of a music program before fifth grade.
Miranda Hahn
Girl Scout Room
Miranda created a Girl Scout room at her church in St. Joseph. She put all of the supplies needed for troops to have meetings in the room, including all of the Girl Guides, most Journeys, craft supplies, and a few homemade books that will be useful for leaders and troops. She wanted to help provide a place for leaders to have their meetings and supplies for girls to earn badges, journeys, and awards. She wanted to make sure that troop leaders had the supplies they needed for their troops without having to worry about the money it costs.

Emma Halteman
Project Playtime
Emma worked with a local Springfield domestic violence shelter, Sojourn Shelter, to renovate their children's center. The room needed new flooring, a new baseboard, new paint, new furniture, and new toys and books to keep in the room. Even though her project's focus was renovating a children's center, it addressed the issue of domestic violence. Emma wanted to help make this traumatizing experience better for the children involved. Every child deserves the right to a happy childhood, and by renovating the children's center, she helped them have a chance at a good childhood.

Jamie Hefley
Bluebird Recovery Project
Jamie's project is a recovery and awareness program for bluebirds and other native cavity-nesting birds. Nineteen nesting boxes were built and set up at a conservation reserve area located in Hillsboro. Throughout the nesting season she collected data on the nests, eggs, hatchlings, and fledglings, which was later submitted to the Central Illinois Bluebird Society for its research and national database. The issue she addressed was the loss of habitat and nesting sites for bluebirds and other native cavity-nesting species. By focusing on promoting the bluebird population and providing nesting opportunities, her project impacted this issue.

Josie Long
Chatham Little Libraries
Josie helped Chatham Little Libraries, aka Titan Brain Fuel. She helped by moving their donated books to a permanent location. She also created an Instagram and Facebook page and made flyers to raise awareness of the program in her community. Her project helped address children's literacy in Chatham. The Little Libraries are small wooden structures that hold free books all around town. Josie wanted to help this program reach its full potential so that she could help childhood development through reading.

Bethany Pohlman
A StoryWalk®
Bethany was able to install 19 StoryWalk® displays at the YMCA and one at the Jacksonville Public Library. She established the first book in the StoryWalk® and set up activities for books to come. She also made and installed three new benches and trash receptacles along the trail. All of these completed steps made a project that helps create a healthy lifestyle and expand the knowledge of children. Her project addressed childhood obesity and supports how important it is to have a healthy lifestyle. It also addressed strengthening young children's education.

Athena Try
The Reading Garden
Athena built a garden for the Matheny-Withrow Elementary School that focuses on the power of reading and how it can correspond with plants. She hopes to spread the love of reading and positivity towards kids who might not experience either outside school. To do this, she researched books with plants in them, and then bought both the book and actual plant to put into the garden. Her project addressed reading, which is a passion of hers, and connected it to real-life objects (flowers and plants). Hopefully this will encourage Matheny-Withrow students to make those connections as well, enjoy reading and the beauty of the garden, and instill pride in their school.

Karina Kammerer
Once Upon a Time
With a love of reading, Karina wanted to help a worldwide decline in literacy by making books more accessible from an early age. Karina bought books to give to the children in the Carthage Memorial Hospital, and then with the help of volunteers, she made three book bins and donated additional books to the Hamilton Library. Karina was able to identify an issue for children and help resolve the problem, making a positive influence in her community.

Grace Zanger
Loraine Park Enhancement
Grace added several new playground pieces to her local park in Loraine, so as to help promote physical fitness for children 1-4 years old. She included a handicap swing and a generation swing. She also restored the old playground pieces with industrial paint, and included a bench, a sit-and-spin, a spring animal, and a spring teeter-totter. The project addresses the importance of outdoor recreation to the young generation, because people are most influenced at a young age. Teaching kids about being active at a young age will encourage them to continue to be active when they grow up.
Help us celebrate our outstanding Girl Scouts! Girls earning their Gold, Silver or Bronze Award will be honored along with Honor Troops and Super Sellers. After the awards presentations any girl bridging to the next age level can participate in the regional award ceremony.

The Girl Scout Leadership Experience is based on **FOUR PROGRAM PILLARS**. Girl Scout Destinations

Do you love animals? Do you like adventure? Sydney and Heidi, Girl Scouts from central Illinois, do! Sydney learned about pandas in China and Heidi helped save the sea turtles in Costa Rica.

Heidi went on a Sea Turtle Retreat Destination in Costa Rica. Here’s what she had to say about the experience: “Throughout our 9-day journey, we went through exhilarating adventures, meaningful conversations, and profound connections with new friends and community members. With this trip, I learned how important wildlife conservation truly is and how small steps can be impactful in saving the world.”

Sydney

From one of GSCI’s amazing Destination travelers: “I have always wanted to go to China since I was a little kid. This destination made my childhood dream become a memory. I will always remember my first time ever being in a panda enclosure with the pandas. Feeding the pandas was an amazing memory to have and I will forever remember this time I had in China. Thank you for helping me make my childhood dream come true.”

You too can attend a destination of a lifetime!

Girl Scout Destinations are the ultimate adventure for individual girls ages 11 and older! (For troop opportunities, check out council-sponsored trips like Europe 2020, Getaways or International Events.) With different trips every year, there’s something amazing for everyone. Pack your bags full of life-changing experiences and make friends from all over the country as you travel with Girl Scouts from different states. (Not a Girl Scout? Just join!)

STEPS TO GET STARTED:
1. Review all the Destinations in the fall.
2. Contact the Destination host with specific questions about a trip.
3. Apply! You may apply for up to four Destinations. First-round applications are due late fall, and second-round applications will be due in the winter.

#### Back to School

It’s back-to-school time! Backpacks are getting packed, pencil pouches are being zipped and you are getting ready to begin a new and exciting year. There are many ways to benefit your school or the schools in your community to make a difference this school year. You could host a back-to-school drive to collect school supplies, work with an organization/company to donate something that would impact the school, or find out how you could join forces with the school in already established service traditions such as collecting box tops or an annual food drive; whatever you decide to do, make an impact this school year!

**Due November 15, 2019**

#### Holiday Cheer

Spread some holiday cheer! The holidays are a time when people open their hearts to help others. What can you do to make the holidays in your community a little bit more merry and bright? You could make holiday cards for people at a local retirement home, host a coat drive to help keep people warmer during the chilly months, or collect gently used toys for children to open on Christmas morning. Discuss with your troop what you would like to do to help spread some extra cheer this holiday season.

**Due January 15, 2020**

#### Love Our Earth

Our earth is a beautiful place! How can you help ensure that our earth will last us for years to come? You could plan a recycling program at your school, use less water while brushing your teeth in the morning, or help clean up litter at your local park. Think big or think small; you can do something big out in the community or you can simply make a pact with your troop to all make individual changes in your life. Track your earth-saving habits with your troop and discuss at your next troop meeting!

**Due May 15, 2020**

#### Proud to Be an American

Like the song says, the United States is the land of the free and the home of the brave! This is all thanks to the sacrifice of the men and women who protect our country every day. There is no better way to celebrate Independence Day on July 4th than by thanking our troops. This could be people who are currently serving or veterans who have served in the past. You could make cards to send to troops overseas, volunteer at your local Veteran’s Association, or collect supplies to send in a care package. Get in the patriotic spirit and celebrate our country’s independence Day by thanking the people who make it possible!

**Due July 15, 2020**
